Dear Mr. Weegar:

I have completed a review of the document, "Draft RCRA Facility Investigation, Solid Waste Management Units 22, 23, 24, and 25, NAS Fort Worth Joint Reserve Base Carswell Field, Texas." This report was received by EPA on September 18, 2000. The report proposes closure, for soils only, at the former landfills to Risk Reduction Standard 2. The report indicates groundwater contamination in the landfill area of NAS Fort Worth will be investigated and remediated under a separate environmental restoration project. I have no further comments on the report.

Please contact me at (214)665-8306 should you wish to discuss this further.

Sincerely,

Gary W. Miller
