RE: UPCOMING TECHNICAL MEETING (FEBRUARY 14-15)

Dear Mr. Murphy:

As discussed in our February 4 telephone conversation, the meeting scheduled for February 14-15 has been moved to February 15-16. Mr. James Hudson, the EPA's RPM for NAS JAX has agreed that these dates would also be suitable and that support staff would be available. Likewise, Peter Redfern has been duly notified. The only remaining person is Kevin Gartland who shall be notified on Monday Feb. 7th.

Regarding the nature of the meeting, there have been some concerns by management that a facilitator will not be present. As I have explained to you before, I do not object to the presence of these individuals in this meeting and I could see their value as potential catalysts in case technical opinions are diverging; however, the team should let the facilitators know that this upcoming meeting has been devoted exclusively to deal with issues of technical nature where the parties involved at NAS JAX will bring with them the technical support staff deemed adequate.

If you have any questions please contact me at (904) 488-0190

Sincerely,

Jorge R. Caspary
