RE: Non-Significant Change to ROD for OU-1. NAS  
Jacksonville, Florida

Dear Mr. Gaskins:

I have reviewed the above referenced request dated June 2000 (received June 13, 2000). Based on previous team discussions, the proposal to add analyses for methane/ethane/ethene, chloride, hydrogen sulfide, carbon dioxide, and fraction organic carbon is acceptable. Likewise, the lack of detection, after four quarters of sampling, and the subsequent proposal to eliminate analyses for nitrogen, TKN, bis(2-ethylhexyl) phthalate and naphthalene is acceptable.

If I can be of any further assistance in this matter, please contact me at 850/488-3935.

Sincerely,

Jorge R. Caspary, P.G.
