Subject: NASKW MRSPP for UXO 01 through UXO 04

Tracie,

Attached is a copy of the Munitions Response Site Prioritization Protocol (MRSPP) scoring tables for four sites at NAS Key West:

- UXO 01 Fleming Key Dredge Spoil Area
- UXO 02 Near Shore Underwater Ranges
- UXO 03 Trumbo Point Temporary Staging Area
- UXO 04 Taxiway D Drainage Ditch (this one collectively addresses the A950 Spoils Pile and A22 Drainage Ditch at Boca Chica Field)

These tables are being submitted for your review as part of the stakeholder involvement process to provide you an opportunity to participate in the application of the protocol. As part of the attached package you'll also see we've included a copy of the draft public notice that will be published in the Key West Citizen once we've received approval from the NASKW Public Affairs Officer to do so. The Navy's goal is to place a copy of the scoring sheets in the Monroe County Public Library next week and publish the notice no later than August 31, 2014 so the 30 day public comment period can be

concluded by September 30, 2014.

I've attached a copy of the MRSPP Stakeholder Fact Sheet that provides a broad overview of the process as a refresher to the discussions we had at the NASKW Partnering Team meeting last month where we went through the UXO 01 scoring tables in an effort to familiarize team members with the process. Additionally, you'll be receiving a second email from me shortly with a link to download the DoD MRSPP Primer document for your reference in case you want or need a guidance document that provides a much more detailed overview of the process as you complete your review.

We'll be happy to answer any questions you may have as you're reviewing the scoring tables.

Best regards,

Todd

Todd Haverkost, P.G.
