Subj: Initial Assessment Study
(IAS) for Naval Station
(NAVSTA), Mayport, Florida

Dear Mr. Linton:

Enclosed is a copy of the IAS for NAVSTA Mayport, May 1986.

This document was prepared under the Navy Assessment and Control of Installation Pollutants (NACIP) Program. The NACIP Program is the Navy's counterpart of the EPA's Superfund Program. The program consists of three separate steps: The IAS, the Confirmation Study, and Remedial Measures. Prior to proceeding into the Confirmation Study, we would like to have a meeting to discuss both the IAS and the Plan of Work for the Confirmation Study. Arrangements for the time and location of this meeting will be made with you at a later date.

Should you have any questions or comments concerning this matter prior to our meeting, please contact Mr. Jose R. Negron at (904) 246-5268.

Sincerely,

E. W. FROEHLICH
