SUBJECT: Completion Report for SWMU 6 and 7, Naval Station Mayport, FL.

I reviewed the subject document dated May 21, 1997 (received May 27, 1997). It is adequate for its intent. I am sorry for the delay in getting back to you on this project. I gave it a low priority since you told me the Navy had terminated operations of the subject treatment system while they investigated other free-product recovery alternatives. If you have any questions, please call me.
