RE: Completion Report for the Sampling Activities at SWMU 15, Bechtel Environmental Incorporated; U.S. Naval Station, Mayport, Florida

Dear Ms. Wilson:

I have reviewed the above document dated April 1999 (received May 20, 1999). This document is acceptable as an "information only" document since it documents work that was accomplished in a *de minimus* manner, interpretation of the data was not presented nor were conclusions and recommendations made based on those data. Additionally, since the report is not professionally certified according to Florida law, it cannot be utilized for making final decisions in the RCRA Corrective Action Program. If you like, we can discuss the report at the Partnering meeting next week.

If you need further clarification or any additional information, please feel free to contact me at 850-921-4230.

Sincerely,

James H. Cason, P.G.
Remedial Project Manager
