RE: Draft Basewide Work Plan, US Naval Station (NAVSTA), Mayport, Florida

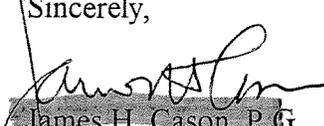

Dear Ms. Wilson:

I have reviewed the above document dated May 1999 (received October 15, 1999) and we have discussed it at the Partnering meeting earlier this week. The Navy and the contractor should consider the following comments as it prepares the final document:

1. Section 2.2.1.1: please be aware that the proper disposition of petroleum-contaminated soil is dependent on analytical factors in addition to TPH. Please refer to the Soil Cleanup Target Levels in Chapter 62-770, F.A.C.
2. The document appears to concentrate on petroleum-related sites. Please make the necessary corrections/changes for sites other than petroleum sites. As a matter of reference, SWMU 15, one of the first sites to be investigated, is not a petroleum site.

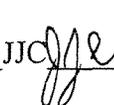

Thank you for the opportunity to review this document. If you need further clarification or any additional information, please feel free to contact me at 850-921-4230.

Sincerely,

James H. Cason, P.G.  
Remedial Project Manager

CC: Randy Bishop, NAVSTA Mayport  
Charlie Radford, CH2M Hill, Atlanta
