RE: Workplan for a Concrete Cap Design and Installation at SWMU 17 and Engineering Drawings and Specifications, Naval Station Mayport, Mayport, Florida

Dear Ms. Wilson:

I have reviewed the above documents dated, respectively, December 2004 and January 4, 2005 (received January 4, 2005). The documents describe the construction of an impermeable cap on the site. Jeff Lockwood, P.E, has also reviewed the engineering construction figures. His review is attached. Based on our reviews, the documents and the proposed action are acceptable.

Thank you for the opportunity to review this document. If you require further clarification or other assistance, please contact me at 850-245-8999.

Sincerely,

James H. Cason, P.G.  
Remedial Program Manager

CERTIFICATION OF APPROVAL

RE: Planned Construction Figures  
Solid Waste Management Unit #17  
NAS Mayport, Florida  
EPA #FL2170023244

In my professional judgment, the engineering features described in the above-referenced documents under a cover letter dated and received on January 4, 2005 provide reasonable assurance of mitigating exposure to applicable pollutants that may be potentially harmful or injurious to human health or welfare and animal or plant life in accordance with state requirements described in Chapter 376, F.S. Mr. Andrew W. Frost, Florida P.E. No. 59323, is the engineer of record for this document.

I have not evaluated and do not certify aspects of this plan that are outside the limits of my review responsibilities and outside of my area of expertise, including but not limited to mechanical and structural features.
