RE: Site Assessment Report for Site 250, Revision 1, Naval Station Mayport, Mayport, Florida

Dear Ms. Washington:

I have reviewed the above document dated December 2004 (received December 30, 2004). We also reviewed this site at the last Partnering meeting. The document summarizes the soil contamination at the site and proposes a source removal for all of the contamination except for that under the sewer line. I concur. Please furnish a figure with the source removal report that delineates the area of remaining soil. This will be needed when formulating the anticipated land use controls for the site.

Thank you for the opportunity to review this document. If you require further clarification or other assistance, please contact me at 850-245-8999.

Sincerely,

James H. Cason, P.G.
Remedial Program Manager
