RE: Treatability Study Evaluation Report for SWMUs 6 & 7, Naval Station Mayport,
Mayport, Florida

Dear Ms. Wilson:

I have reviewed the above document dated September 2006 (received September 12, 2006). The document describes the evaluation of two soil treatability methods, whether contaminated groundwater is present and it also evaluated passive free product recovery at the site. Information from the document will be used in a future CMS. The present document is acceptable.

Thank you for the opportunity to review this document. If you require further clarification or other assistance, please contact me at 850-245-8999.

Sincerely,

James H. Cason, P.G.
Remedial Program Manager
