RE: Statement of Basis, Solid Waste Management Unit 24 – North Florida Shipyards, Inc., Naval Station Mayport, Mayport, Florida, Draft-Final Rev. 2

Dear Ms. Wilson:

I have reviewed the subject document dated June 29, 2007 (received February 18, 2008). My comments concerning this Statement of Basis (SB) for Solid Waste Management Unit (SWMU) 24 are below.

- 1. Summary, Page 1, Column 1:** In the second sentence of the first paragraph please insert the words "location of" in between the words "former" and "North". This change should also be made in the Facility Background Section in the first sentence of the second paragraph. It should read..."SWMU 24 (see Figure 2), the former location of the North Florida Shipyards, Inc., ..."
- 2. Summary, Page 1, Column 1:** The seventh sentence of the first paragraph should read..." LUCs will restrict the site to non-residential land use only, and will also prohibit any soil disturbance, excavation, or removal activities unless prior written approval is obtained from the NAVSTA Mayport Environmental Department in accordance with the NAVSTA Mayport excavation permit process."
- 3. Summary, Page 1, Column 2:** The first sentence of the second paragraph should read "LUCs for groundwater will prohibit groundwater use/extraction, and will also prohibit any interference with groundwater monitoring systems at SWMU 24". Please make this change in the **Propose Corrective Action Section, Column 1, Paragraph 2** ("LUCs for groundwater will prohibit groundwater use/extraction, and will also prohibit any interference with groundwater monitoring systems at the SWMU.")
- 4. Summary, Page 1, Column 2:** When discussing the COCs in groundwater please substitute the word "attenuation" for "degradation". This correction should also be made in the **Proposed Corrective Action, Summary of Alternatives, and Recommendations** sections.
- 5. Proposed Corrective Action, Page 2, Column 1:** The first sentence of the first paragraph should read..."The proposed corrective action for surface and subsurface soil includes imposing LUCs to restrict the site to non-residential use only, and it would also prohibit any unauthorized surface and subsurface soil disturbance."

6. **Proposed Corrective Action Page 2, Column 1:** Please review the present worth cost information in this Section for both soil and groundwater. Any corrections in the text should also be reflected in the Evaluation of Alternatives Tables.
7. **Proposed Corrective Action Page 2, Column 1:** Please change the second sentence in the second paragraph to read..."LUCs for groundwater will prohibit groundwater use/extraction, and it would also prohibit any interference with..."
8. **Facility Background, Page 2, Column 2:** Please substitute the words "the former location of" for "formerly" in the first sentence of the second paragraph.
9. **Summary of Facility Risks, Page 3, Column 2:** Please reword the *Groundwater* description as follows: A comparison to FDEP Groundwater Cleanup Target Levels (GCTLs) concluded that antimony, arsenic, silver and zinc are COCs in groundwater for SWMUs 1, 23, 24, and 25. The human health risk assessment concluded that there are cancer and non-cancer risks to human health associated with hypothetical future residents."
10. **Summary of Facility Risks, Page 3, Column 2:** Under the Interim Measures portion of this section, in the third sentence, please change the word "the" to "an" between "completed" and "excavation".
11. **Summary of Alternatives, Page 4, Column 1:** In the *Soil Alternative 2* paragraph the first sentence should be..."This alternative would implement LUCs to restrict the site to non-residential land use only, and it would also prohibit any unauthorized surface and subsurface soil disturbance." This change should also be made in the **Recommendations Section** ("Soil Alternative 2 would implement LUCs to restrict the site to non-residential use only, and it would also prohibit any unauthorized surface and subsurface soil disturbance at the SWMU.").
12. **Summary of Alternatives, Page 4, Column 1:** In the *Groundwater Alternative 2* paragraph the first sentence should be..."This alternative would impose LUCs in the form of a groundwater use/extraction prohibition, and would prohibit any interference with..."

Thank you for the opportunity to review this document. If you require additional clarification or other assistance please feel free to contact me at 850/245-8999.

Sincerely,

John Winters, P.G.
