RE: Revised Pages for *Comprehensive RFI Work Plan and Assembly A Site Investigation Plans*, NAS Memphis, Millington, Tennessee; Contract N62467-89-D-0318, Comprehensive Long-Term Environmental Action Navy (CLEAN); CTO-016

Dear Sir:

EnSafe/Allen & Hoshall is pleased to submit two sets of revised pages for the *Comprehensive RFI Work Plan and Assembly A Site Investigation Plans* for NAS Memphis. Revisions were made to address Tennessee Department of Environment and Conservation comments on the final plans and to reflect EPA Region IV's approval of the Navy's request to change the percentages of analytical data that will be reported at data quality objectives (DQO) Levels III and IV.

Copies of the revised pages have been distributed as indicated on the enclosed NAS Memphis Distribution List. A list of the revised pages has been included so recipients can be sure they have received complete sets. Please note that the CLP Quality Assurance Goals should be removed from Appendix D of the *Comprehensive RFI Work Plan* and that a new time line schedule based on the actual approval date for the work plan (November 9, 1994) has been included to replace the schedule in Appendix C.

If you have any questions or comments, please contact me at 901/372-7962.

Sincerely,

EnSafe/Allen & Hoshall

By: Lawson M. Anderson, CHMM
