Natural Resources Partners:

We are looking forward to your participation during the INRMP Annual Review on Wednesday, 19 September at 0930 in Bldg 455, Public Works Conference Room, at NSA Mid-South. We are pleased that you will be able to join us in person or by phone. If Lieutenant Commander Benton, the Public Works Officer, is able to pull away from other simultaneous engagements, he would like to share a few comments with us at the beginning of our meeting.

I have attached a number of reference documents, which we will use to discuss our INRMP status and progress for FY12. When we convene on Wednesday, I will also issue a copy of the Navy installation's projected Natural Resources Metrics evaluation, which we will use to confirm or adjust the assessment of our INRMP effectiveness for the past year since our INRMP Review for Operation and Effect in FY11. The attachments to this email will serve to inform the assessment of the Navy's following Focus Areas, which also support the purpose of the Sikes Act:

1. Ecosystem Integrity
2. Listed Species and Critical Habitat
3. Fish and Wildlife Management for Public Use
4. Partnership Effectiveness
5. Team Adequacy
6. INRMP Project Implementation
7. INRMP Impact on the Installation Mission
8. Climate Change Impacts (We would like to solicit your opinion/experience in this area)

If you need to refer to our latest INRMP (Updated in 2010) in preparation for the INRMP

Review on Wednesday, you may wish to use the same web site offered by ENSAFE, who has

supported a number of our Natural Resources projects in the past. Please refer to:
