RE: Final Environmental Assessment Report; Building S-50 UST Site; Naval Air Station
Memphis, Millington, TN; Contract N62467-89-D-0318; CTO-068

Dear Sir:

EnSafe/Allen & Hoshall is pleased to submit five copies of the Final Environmental Assessment Report (EAR) for the underground storage tank (UST) site at NAS Memphis Building S-50. Also enclosed are responses to the comments on the Draft EAR. As requested, two copies of the EAR have been forwarded to Mrs. Tonya Barker at NAS Memphis.

NAS Memphis has applied for a UST registration number from the Tennessee Department of Environment and Conservation, but has not received it; therefore, it was not possible to include the number in the report. Also, please note that a Corrective Action Plan should not be required for this site because contamination exceeding TDEC cleanup levels was not detected. E/A&H recommends that this be documented in your cover letter to TDEC.

If you have any questions, please contact me or Robert Smith at (901) 372-7962.

Sincerely,

EnSafe/Allen & Hoshall
