RE: Solid Waste Management Unit (SWMU) 39 – Former Laundry and Dry Cleaning Facility
Sub-Slab Groundwater Sampling Plan, May 13, 2013
Naval Support Activity Mid-South (NSA Mid-South), Millington, TN
Tennessee Hazardous Waste Permit Number: TNH-094, TN2170022600

Dear Sir:

The Division of Solid Waste Management (Division) is granting approval of the SWMU 39 Sub-Slab Groundwater Sampling Plan. The purpose of the work plan is to investigate potential shallow groundwater impacts associated with water that infiltrated the SWMU 39 excavation during the Building S-74 slab and sub-slab soil removal activities conducted in the summer of 2012. The objective is to evaluate whether the perched groundwater is horizontally continuous beneath the sub-slab and whether it is impacted with chlorinated solvents.

Comments and questions concerning the approved SWMU 39 Sub-Slab Groundwater Sampling Plan should be directed to me at (615) 532-0864 or by email at Roger.Donovan@tn.gov.

Sincerely,

Roger Donovan, P.G.
