Dear Sir:

The Division of Solid Waste Management (Division) is approving the proposed soil gas investigation for SWMU 15. The purpose of the investigation is to evaluate the extent and potential source areas for benzene in groundwater at SWMU 15. The survey will consist of 55 soil-gas detectors placed in a grid pattern in an area predominately upgradient of previous investigations.

Comments and questions concerning the SWMU 15 Soil Gas Investigation approval should be directed to me at (615) 532-0864 or you may email me at [Roger.Donovan@tn.gov](mailto:Roger.Donovan@tn.gov).

Sincerely,
