Mr. Rocky Krantz  
Water and Wastewater Manager  
City of Millington  
P. O. Box 247  
Millington, Tennessee 38053

Dear Mr. Krantz:

As directed in the enclosed letter from the Tennessee Department of Health and Environment (TDHE), the Naval Air Station Memphis is requesting permission to discharge 440 gallons of wastewater through the Millington Sewage Treatment Plant.

Three hundred thirty (330) gallons of the wastewater are from sinking a monitoring well (test results are enclosed), and 110 gallons of wastewater are from cleaning asphalt prior to taking soil samples from our hazardous waste storage yard (test results are enclosed). For further information, please contact Mr. George Robertson at 873-5209.

Sincerely,

R. G. CARPENTER  
CDR, CEC, USN  
PUBLIC WORKS OFFICER  
BY DIRECTION OF THE COMMANDING OFFICER  
NAVAL AIR STATION MEMPHIS

Encl:

- (1) TDHE ltr of June 22, 1989
- (2) Test Results from Navy Exchange Monitoring Well
- (3) Test Results from Hazardous Waste Closure

Public Works Officer  
Naval Air Station Memphis

Re: Discharge Of 440 (Four Hundred Forty)  
Gallons of Wastewater through the  
Millington Sewage Treatment Plant

Dear Commander Carpenter:

After review of the test results of the monitoring well wastewater and the cleaning wastewater, I feel that the disposal would not present a problem to the Millington Wastewater Treatment Plant. I have talked to Mrs. Lancaster concerning the method of discharge and the discharge point. I would like to thank you and your staff for insuring that the material is not hazardous by presenting test results for my review and records. If I can be of any further assistance please feel free to contact me.

Sincerely,

Rocky Kranz  
Water and Wastewater Manager
