Tennessee Hazardous Waste Permit Number: TNHW-094
EPA I.D. Number: TN2 17 002 2600

Dear Sir:

The Division of Solid Waste Management (Division) has reviewed the Excavation Summary Report for Additional Soil Remediation at SWMU 15, prepared by Solutions to Environmental Problems, Inc. (STEP). The remedial action included the additional excavation, transportation, and disposal of 2,480 tons of petroleum-contaminated soil. Additionally, confirmatory soil sampling, backfilling, compacting, and site restoration were performed. The Division agrees that all work was completed according to the approved work plan. NSAM may proceed with developing a final remedy for the site.

If there are any questions or comments regarding this review, please contact Roger Donovan at (615) 532-0864 or e-mail at roger.donovan@state.tn.us.

Sincerely,
