Re: Draft Sampling and Analysis Plan for Small Arms Range Site Inspections
Solid Waste Management Units (SWMU) 39, Revision 1
Naval Support Activity Mid-South (NSA Mid-South), Millington, TN
Tennessee Hazardous Waste Permit Number: TNHW-094, TN2 17 002 2600

Dear Sir:

The Division of Solid Waste Management (Division) has completed the review of the above referenced document. The objective of the work plan is to determine if further response or investigation are appropriate for any of the sites identified in the Preliminary Site Assessments. The investigations will consist of focused sampling and analysis programs to identify potential contaminants, if they exist, based on information in the PA and various Navy and regulatory guidance for investigation of small arms and skeet ranges.

The Division approves the work plan as submitted. If there are any questions or comments regarding this review, please contact me at (615) 532-0864 or e-mail at Roger.Donovan@tn.us.

Sincerely,

A handwritten signature in black ink, appearing to read "Roger Donovan", written over a circular scribble.

Roger Donovan, P.G.
