SUBJ: Interim Remedial Action Focused Feasibility Study, Operable Unit 4, Naval Training Center, Orlando, Florida

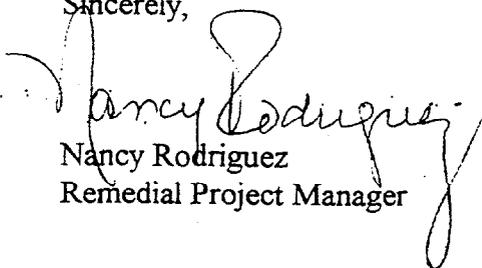

Dear Mr. Hansel:

The United States Environmental Protection Agency (EPA) has completed the review of the Interim Remedial Action Focused Feasibility Study, Operable Unit 4, Naval Training Center, Orlando, dated February 1997.

EPA Region 4 finds the document acceptable and is in agreement with the recommendations made in this document. It is evident that some remediation will be needed at the site, and the choice of *in situ* in-well air stripping and recirculation appears appropriate.

If you have any questions regarding the above comments, please call me at (404) 562-8536.

Sincerely,

Nancy Rodriguez
Remedial Project Manager
