RE: Final Focused Feasibility Study, Operable Unit 4, Naval
Training Center Orlando.

Dear Mr. Hansel:

I have completed the technical review of the subject document dated May 1997 (received May 28, 1997). The document is approved as final as per the attached memorandum and certification from Greg Brown, P.E.

If I can be of any further assistance with this matter, please contact me at (904) 921-9989.

Sincerely,

John W. Mitchell
Remedial Project Manager

TO: John Mitchell, Remedial Project Manager, Technical Review Section

THROUGH: Tim Bahr, P.G., Supervisor, Technical Review Section **TB**

FROM: Greg Brown, P.E., Professional Engineer II, **TB**
Technical Review Section

DATE: June 20, 1997

SUBJECT: Final Feasibility Study, Operable Unit 4, Naval Training Center Orlando, FL.

I reviewed the subject document dated May 1997 (received May 28, 1997). Willard A. Murray, Ph.D., P.E., Florida Licensed Professional Engineer No. 0039899, is the engineer of record for this engineering document. I reviewed the Final Draft version of this engineering document dated February 1997 (received February 24, 1997) and provided you minor comments in a memorandum dated March 12, 1997. I agree with the general conclusions and recommendations reported in the final document. The final document is adequate for its intent. The engineering certification of approval is attached. If you have any questions, call me at (904) 488-3935.

CERTIFICATION OF APPROVAL

RE: Final Feasibility Study, Operable Unit 4, Naval Training Center Orlando, FL.

Naval Training Center, Orlando, Florida, is undergoing investigation and remedial actions under the federal Comprehensive Environmental Response, Compensation, and Liability Act, as amended, administered by the U.S. Environmental Protection Agency Region IV Administrator. In my professional judgment, the engineering features described in the engineering document, Final Focused Feasibility Study, Operable Unit 4, Florida, dated May 1997, provides reasonable assurance of reducing applicable pollutants below quantities that may be potentially harmful or injurious to human health or welfare and animal or plant life in accordance with state requirements described by Chapter 376, F.S.

I have not evaluated and do not certify aspects of this plan that are outside the limits of my review responsibilities and outside my area of technical expertise (including but not limited to electrical, mechanical, and structural features). I personally conducted this review.

Gregory M. Brown, P.E.
