Re: Technical Memorandum, Focused Risk Assessment: SA 40
Surface Soil and Groundwater, NTC Orlando.

Dear Mr. Hansel:

I have reviewed the above referenced document dated May 18, 1998 (received May 26, 1998). The document appears adequate for its intent. Please note to use the states Soil Cleanup Target Levels (SCTLs) referenced in the attached memorandum from David Grabka.

If I can be of any further assistance with this matter, please contact me at (904) 921-9989.

Sincerely,

John W. Mitchell
Remedial Project Manager

Memorandum

Florida Department of Environmental Protection

TO: John Mitchell, E.S. III, Remedial Project Manager

THROUGH: Tim Bahr, P.G. Supervisor, Technical Review Section *TB*

FROM: David P. Grabka, E.S. I, Technical Review Section *DPG*

DATE: July 2, 1998

SUBJECT: Technical Memorandum, Focused Risk Assessment: SA 40 Surface Soil and Groundwater, NTC Orlando, Florida, May 18, 1998

I have completed my review of the Technical Memorandum for the Focused Risk Assessment of Study Area 23 Surface Soil. In general, I found the document adequate for the purpose for which it was intended. However, Chapter 62-785, Florida Administrative Code, Soil Cleanup Target Levels (SCTLs) should have been used for screening for Chemicals of Potential Concern (CPCs) and establishing trigger levels instead of the Soil Cleanup Goals (SCGs) for Florida, dated January 19, 1996. These SCTLs represent the Department's latest calculated risk-based cleanup numbers.
