RE: Final Work Plan for Well Installation and Groundwater
Sampling, Operable Unit 2, Former Orlando Naval Training
Center

Dear Mrs. Nwokike:

I have completed my review of the Final Work Plan for Well Installation and Groundwater Sampling, Operable Unit 2, Former Orlando Naval Training Center, dated February 2002 (received February 12, 2002), prepared and submitted by Tetra Tech NUS, Inc. The Work Plan adequately describes the installation of groundwater monitoring wells and surface water sampling stations and describes one year of quarterly sampling of monitoring wells and surface water locations.

If I can be of any further assistance with this matter, please contact me at (850)921-9991.

Sincerely,

David P. Grabka, P.G.
Remedial Project Manager
