LETTER REGARDING REGULATORY REVIEW WITH COMMENTS ON DRAFT SITE
INVESTIGATION FOR STUDY AREA 54 NTC ORLANDO FL
5/3/2002
FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

May 3, 2002
OFFICIAL CORRESPONDENCE

Commanding Officer
attn: Mrs. Barbara Nwokike, Code ES333
Southern Division
Naval Facilities Engineering Command
Post Office Box 190010
North Charleston, SC 29419-9010

Dear Mrs. Nwokike:

I have completed my review of the Draft Site Investigation Report for Study Area 54, McCoy Annex, Orlando Naval Training Center, dated November 2001 (received November 13, 2001), prepared and submitted by Tetra Tech NUS, Inc. Overall, I found the report quite clear as to the assessment work conducted to date. I do have the following editorial comments that should be fixed in the final report:

- (1) In the Table of Contents, I believe the page that Appendix D starts should be D-1, not C-1.
- (2) Table 4-1 gives the results of analyses of a soil and groundwater sample at Sample Point No. 60 – Northeastern Area. The results are for PAH concentrations in the soil, leachable PAH concentrations by the SPLP Method and PAH concentrations dissolved in groundwater. All the results are given in $\mu\text{g}/\text{kg}$. The results for the leachate and the groundwater analyses should be reported in $\mu\text{g}/\text{L}$.
- (3) In Figure 4-2, the color code for samples Sample Points 114 and 115 should be blue to denote that PAHs detected in soil were below the Department's industrial SCTLs.

Please make the editorial changes mentioned above in the final report. Also, the final report is awaiting soil removal by CH2M Hill Constructors, Inc. Once generated, the source removal report is to be included as an appendix to the report.

This electronic message is being sent in lieu of regular mail. If you have any questions concerning this review, please contact me at (850)921-9991.

Sincerely,

David P. Grabka, P.G.
