OFFICIAL CORRESPONDENCE

Commanding Officer
attn: Mrs. Barbara Nwokike, Code ES333
Southern Division
Naval Facilities Engineering Command
Post Office Box 190010
North Charleston, SC 29419-9010

Dear Mrs. Nwokike:

I have completed my review of the Draft Source Removal Report for Study Area 54, McCoy Annex, Orlando Naval Training Center, dated October 25, 2002 (received via e-mail on October 27, 2002), prepared and submitted by CH2M Hill Constructors, Inc. While the overall report is adequate for its intent, I have the following comments that should be addressed in the final report:

- (1) In Section 2.0, it says the "horizontal excavation limits were based on soil sample results obtained by the CLEAN . . ." It is understood that the CLEAN actually means the Navy's CLEAN contractors, but this is not explained elsewhere in the document.
- (2) On Figure 2, the symbol for a soil sample where PAHs exceeded industrial SCTLs and the symbol for a soil sample where PAHs were below industrial SCTLs could not be differentiated.
- (3) In Section 2.2, it is stated that the contaminated soil was transported to the Orange County Landfill for proper disposal. I assume that the landfill required laboratory analyticals of the soil prior to accepting the contaminated soil. Please provide these laboratory analyticals or other documentation that was provided to the landfill that assured the county that it was accepting approvable wastes.

Please make the editorial changes mentioned above in the final report.

This electronic message is being sent in lieu of regular mail. If you have any questions concerning this review, please contact me at (850)245-8997.

Sincerely,

David P. Grabka, P.G.
