Subject: Final Long Term Monitoring Optimization Report, OU-3 Study Areas 8 and 9, Former Naval Training Center Orlando, Orlando, Florida

Dear Mr. Sanford:

I have completed my review of the Final Long Term Monitoring Optimization Report, OU-3 Study Areas 8 and 9, Former Naval Training Center Orlando, dated November 14, 2013 (received November 19, 2013), prepared and submitted by Resolution Consultants. I have the following comments on the report:

- (1) In Section 3.3, second to last paragraph, last sentence, Chapter 62-770.680, F.A.C., is cited. It should be Chapter 62-780.680, F.A.C., as Chapter 62-770, F.A.C., has been repealed.
- (2) The number of wells currently sampled or where water levels are measured is inconsistent throughout the report for both Study Areas 8 and 9. Please determine which are the correct numbers and fix the report.

The report is otherwise suitable for its intent. The conclusions and recommendations made in the report are reasonable and should be implemented. If you have any concerns regarding this letter, please contact me at (850) 245-8997.

Sincerely,

A handwritten signature in blue ink that reads "David P. Grabka". The signature is fluid and cursive, with a long horizontal line extending to the right.

David P. Grabka, P.G.
