Subj: Concurrence with Time Critical Removal Action for Operable Unit 6 (Sites 9 & 29) and Screening Sites 34 and 36; Naval Air Station (NAS) Pensacola, Florida
EPA Site ID No.: FL 9170024567

Dear Mr. Hill:

The Environmental Protection Agency (EPA) Region IV has completed its review of the Action Memo received July 14, 1995 regarding the time critical removal actions which the Navy has planned for soils at Operable Unit 6 (Sites 9 & 29) and screening sites 34 and 36. These actions are consistent with, and will contribute to, the overall remediation of these sites under CERCLA as amended by SARA. EPA concurs with the Navy's proposed removal actions, and looks forward to receiving copies of the associated removal action reports upon completion of all proposed activities.

Sincerely Yours,

Allison D. Humphris
