STATUS OF ACTION ITEMS FROM PREVIOUS MEETING (Jan 14-15, 96)
(Bold denotes action items not completed)

Topic

Hyman Removal Compliance - complete

- * 9B and 34 Dieldrin found in clean backfill
- **Will finish RI with two options; leachability and old screening values. Removal report will be included RI (3/29/96).**

SMP Modification - complete

- * New file form to modify SMP provided by J. Bassett.
- * Draft Proposed plan (9,29,34) (4/26)
- 5/24 response to comments PP
- * **Draft rod (9,29,34) 6/19**
- + **Public comment mid June to late July**
- Delay discussion of site 1

Decision:

0296-3 We agree to accept J. Bassett's new file form providing a mechanism for **modifying** the SMP. This will **track all** documents for legal **enforcement**.

Site 14 (see action items)

- * **P. 9-3 14s03, 28,600 mg/kg** (fig 6-3)
- A Collocated sample had 47 mg/kg
- **Eng. study to plan covering basins**
- * Filing instructions given out

Decision:

9602-4 **R. Joyner to check with B. Cooper about construction at Site 14**

Graduation Awards/Pres - Complete

- One plaque and sponsorship travel

Site 39 - 5-year Review (see action item)

- "Explanation of significance differences"
- * **Navy letter with CO signature?**

Decision:

0296-5 **We agree to support an "Explanation of Significant Differences" for Site 39.**

Topic

Site 6 RCRA Transfer? (See action **items**)

Complete, Base **will** close by erecting a sign

Decision

0296-6 We agree to **close** and not to **further** investigate Site 6.

ROICC Strawman - Complete

Site 10 BMP- (see action items)

- * **Does** BMP meet **definition** of institutional control? **Mitchell** says **no**. A legal consent agreement **would** be required.
- Joyner suggests **ROD** instead of a consent order.

Decision:

0296-7 We agree to **support a letter from the CO to FDEP concerning modification of the Base Management Plan** for Site 10.

Host Training - complete

- * Complete: Insitu vitrification

Team Training - complete

- Lee Wille (**Galileo**): interrelationship digraph

RD/RA Documentation - complete (see action items)

Site 1 RI (see action items)

- * Mitchell believes capping selected areas is viable
- * Jay voices use of TCLP in trenches
- ± Mitchell would like two scenarios added to the **FS**, selected removal and selected capping.
- * Two of the trenches (**01s7610, 01s8210**)
- * For approval, Jay needs to call Elmer on ECO
- * 3/21 for Draft Final **FS**

Decision:

0296-8 For Site 1, we agree **no additional comment responses** are **needed**. We agree to add **selected capping and removal** for the "hot" areas in the **FS** for Site 1.

Site 38 ESD Work (see action items)

F. Sloan **will** have report by next meeting. (20 March)

Site 15 and 24 SAP (see action items)

- * **B. Caldwell SAPs** have been **submitted**, fieldwork planned in next few weeks.
- 4 RI due date needs updating

..

Topic

Site 16 Dumping - complete

- 6. Caldwell reported M. Gibson was using area for hurricane debris.

Decision:

0296-9 We agree to ~~sample at the surface and at the old surface~~ for site 16.

RAB/Public Meet Debrief - complete (see action items)

- ~~May~~ have sufficient justification for no public meeting due to minimal public support.

Site 17?

- Currently preparing report (B. Caldwell)

Decision:

0296-10 We agree to recommend to the RAB to ~~reconsider meeting frequency. Also, to reconsider the need for a public meeting.~~

Site 3 CAR (see action items)

- 1000 ppm ~~BTEX~~ max for monitor only
- 2000 ppm "naph" max for monitor only
- Mitchell says action is required, monitor only is unacceptable.
- Untag as RI? Do a "No action ROD"?

Metric Tools (delay)

- Discussion with Jay, delay until next meeting

Priority Ranking - complete

New member processes (delayed)

- Karen Atchley initiation!
- discussion of M. Gold delayed until next meeting

ACTION ITEMS:

Site 15 and 24

9602-1 EPA and FDEP approval letter **needed** for Site 15 and 24 *SAP* addendum.

Site 6

9602-2 R. Joyner will write letter (with references from Bill K.) to EPA and FDEP questing no further action at Site 6.

New member discussion

9602-3 Navy and E/A&H will review **finances for supporting four** contractors. We will **table** the M. Gold **decision** until the financial **decision** can be made, and **discussed thereafter**.

9602-4 All members should complete the **new member procedure** before the meeting, to be provided for K. Atchley.

SMP discussion

9602-5 Jay will implement the changes agreed to the *SMP*.

Site 14

9602-6 Mitchell and Bassett to provide approval letters for Site 14.

Site 39 5-year review

9602-7 Jay will check on the specifics of an "explanation of significant differences" for Site 39.

9602-8 Jay will check on suitable requirements for RD to meet the needs of SCAP.

RD/RA Documentation, processes, and guidance

9602-9 M. Gold will present normal RD process.

9602-10 Bill, Jay, John will *search* for examples of RD.

Institutional Controls

9602-11 B. Gates will check with SOUTHDIV lawyers about requirement for a consent agreement in an institutional control scenario.

9602-12 J. Mitchell will check on legal requirements necessary for a ROD to support institutional control. And an example! Kellenberger will aide the quest.

9602-13 Ron responsible for a letter from CO for institutional control at Site 10 via BMP.

OU-10

- 9602-14 OU-10 ROD will go out by 8 MAR 96. A. Dennen responsible. Draft watermark will be used.
- 9602-15 Joyner and Hill to follow-up on performance standards being added to renewed RCRA permit.
- 9602-16 Allison will develop a Baseline for OU-10.

RAB communication

- 9602-17 Joyner will check with M. Harrison to add consideration of meeting frequency and need for public meetings to the next RAB agenda.

Site 15 and 24

- 9602-18 B. Caldwell responsible for updating the Site 15 RI due dare.
- 9602-19 Bassett and Mitchell responsible for approval letters on Site 15 and 24.

Site 3

- 9602-20 Bassett and ^{Mitchell} Nuzic to check with respective attorneys to determine best mode for reclassifying a RI site such as site 3.

Pollution Engineering Article

- 9602-21 Jay will edit Geiner article and Gold will supply to Greiner.

Facilitator training

- 9602-22 Jay will review and revise the facilitator training schedule.

Background GW statistics

- 9602-23 Henry to present gw data As and Mn, only low flow data.

BLDG 604 study

- 9602-24 EPA report due 3/20/96 from Sloan.

Future Agenda Items

- April Trimm-data presentation Site 40/42, Mason- data presentation Site 41
- April Trimm- Site 2 data presentation, toxicity and diversity results
