RE: Draft Remedial Investigation Report Addendum, Operable  
Unit 13, Sites 8 and 24, NAS Pensacola

Dear Mr. Hill:

I have completed the technical review of the above referenced document dated September 17, 1999 (received September 20, 1999). I have two comments that may be addressed as replacement pages in the final document.

1. Figure 4, Groundwater PRG Exceedences, Sites 8 and 24: The legend for this figure should be corrected for Aluminum (Al) and the corresponding PRG of 200 ppb.
2. Page 6-1, Florida Professional Geologist Seal: This page should be signed and sealed for the final document.

If I can be of any further assistance with this matter, please contact me at (850) 921-9989.

Sincerely,

*Joseph F. Fugitt*
