New York, NY 10007-1866

Gentlemen:

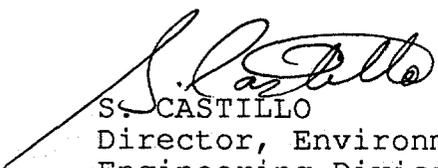

In reply to your letter of July 13, 1995 the Navy is presently revising the U.S. Naval Station, Roosevelt Roads Resource Conservation and Recovery Act (RCRA) Facility Investigation (RFI) work plan and is attempting to fully address the concerns specified in your letter in the upcoming RFI work plan submittal. As discussed in the August 15, 1995 meeting with Mr. T. Gordon of your staff, revised plans for the Station will be submitted for review by September 12, 1995.

We also received your letter of July 19, 1995, and we will submit revised RFI work plans for these units which will be geared towards completing full characterization of the soils and groundwater at these sites. Extensive work is still necessary to complete the revised RFI work plans for Solid Waste Management Units 7 and 8, since the contractor responsible for the plans under the Navy's Installation Restoration Program must now review past work conducted by another contractor under our Underground Storage Tank Program.

As a result, an addendum to the Station's overall RFI work plans will be submitted for review for these two units. The proposed submittal date for the RFI work plan addendum is October 3, 1995.

Should you have any questions, please contact Mrs. Madeline Rivera, Installation Restoration Program Manager, at (809)865-4429; or Mr. Art Wells of Naval Facilities Engineering Command, at (804)322-4587.

Sincerely,

S. CASTILLO
Director, Environmental
Engineering Division
