Tow Way Fuel Farm, Quarterly Progress Report No. 2

Dear Mr. Gordon:

Transmitted under the cover of this letter are two copies of the Preliminary (Working copy) of the Tow Way Fuel Farm Quarterly Progress Report No. 2. The document contains details of recovery system operation and results of the groundwater modeling efforts.

Please note, this is a "preliminary working copy" as we discussed during the joint interest group meeting in Puerto Rico. It is designed for your preliminary review with a subsequent discussion of your comments/concerns. The Navy will address any issues from your preliminary review and submit a formal revised document for full review.

We appreciate your cooperation in this matter. Please do not hesitate to call me at (412) 269-2065, if you have any questions.

Sincerely,
