Subject: Re: NAPR - Proposed June 16 Conf Call to discuss PREQB TechnicalEvaluation Navy RTCs Draft Phase I RFI WP SWMU 76

Hi Wilmarie,

We would like to have a Conference Call on Tuesday June 16 at 2:00 PM EDT to discuss PREQB's June 5 comments on the Navy's March 31 Responses and Revised Phase I RFI Work Plan for SWMU 76. The conference call should involve PREQB (and your consultant), the Navy (and their consultant - Baker) and EPA. Please advise if that date and time are acceptable to PREQB (and its consultant, if they are to participate). If that date & time are not acceptable, EPA and the Navy are available for other times (afternoon only) of Tuesday June 16, or on Thursday June 18, essentially any time that day.

As you know, EPA, in our letter dated April 23, 2009 had previously commented on the Responses and the revised Phase I RFI work plan. Per the terms of EPA's April 23 letter, the Navy was due to submit responses and revisions to the Phase I RFI work plan by this Friday June 14. Based on PREQB's June 5 comments, EPA has advised the Navy that the due date of June 14 for submission of Responses regarding our April 23 comments on the SWMU 76 work plan are suspended, pending the results of the proposed conference call to discuss PREQB's June 5 comments on the Navy's March 31 Responses and Revised Phase I RFI Work Plan for SWMU 76.

Besides discussing how to address PREQB's Comments, during the Call we also need to work out a defined time frame for PREQB to submit comments on future Navy documents, and a procedure to insure that timing of submission of future PREQB and EPA comments are coordinated.
