Dear Ms. Crouse:

We are forwarding the Installation Restoration (IR) Site 56 Engineering Evaluation and Cost Analysis Report (EECA) of August 1995, for inclusion in the reference section of your library. This report must be made available for public review, as required in the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980.

As discussed in our letter 5090 Ser 0952/65 of February 17, 1995, the EECA is a part of the the Indian Head Division, Naval Surface Warfare Center's Information Repository for our IR Program. The establishment of the Repository is required by CERCLA to ensure that the public has the ability to review and comment on various IR documents.

We are also forwarding additional documents and reports concerning our IR program and information obtained from the Environmental Protection Agency for inclusion in the Repository.

We thank you very much for your assistance and if you have any questions or comments concerning this matter, please contact Mr. Shawn Jorgensen of my staff on (301) 743-6745 or 6746.

Sincerely,

A handwritten signature in cursive script that reads "Susan P. Adams".
