LETTER AND U S NAVY REQUEST FOR FINAL FIELD INVESTIGATION REPORT 20
JANUARY 1982 NSWC INDIAN HEAD MD
6/14/1982
NAVFAC WASHINGTON

114/LMS
6240

1 4 JUN 1982

Ms. Kathy Hodgkis, 3AW23
Region III
U. S. Environmental Protection Agency
6th and Walnut Streets
Philadelphia, PA 19106

Re: Freedom of Information

Dear Ms. Hodgkis:

Ecology and Environment, Inc., a contractor hired by EPA Region III to do field investigation work, inspected the Naval Surface Weapons Center, White Oak, MD on 20 January 1982 and the Naval Ordnance Station, Indian Head, MD on 25 January 1982. At that time it was our understanding that a copy of the final report submitted to EPA Region III by Ecology and Environment, Inc would be forwarded to our office. Chesapeake Division, Naval Facilities Engineering Command, (CHESNAVFACENGCOM), hereby requests again that a copy of the above mentioned reports (Maryland 61 and Maryland 64) be forwarded to our office.

The Navy Assessment and Control of Installation Pollutants (NACIP) Program is the Navy Program to identify, assess and control sites on Navy facilities that may have a potential for contaminating the environment. Any findings in the above mentioned reports may be of considerable help to us in executing an effective program.

If there are any questions on this matter, please contact Mr. Lawrence Sparks on (202) 433-3760.

Sincerely,

R. Scott Markert
Manager/Environmental Branch
Maintenance/Utilities Division
By direction of the Commanding Officer
