Naval Support Facility, Indian Head, Stump Neck Annex

Dear Mr. Rail:

The pre-draft version of the subject SAP was submitted to you on November 14, 2008. Navy chemist and Navy RPM MRP Work Group comments have been received and addressed. Navy RPM approval of the responses, with minor modifications to the responses, was received via e-mail on March 5, 2009. The e-mail also contained instructions to submit the draft version of the SAP. The draft SAP was submitted to you on March 13, 2009. The Navy provided minor comments on March 20, 2009 and additional Navy RPM MRP Workgroup comments on May 14, 2009 on the MEC SAP. All of these comments have been addressed. Attached are the responses to the Navy comments on the draft version MEC SAP. The regulatory agencies for Maryland and USEPA have approved the SAP without comment. The enclosed final SAP incorporates the responses to all Navy comments.

Enclosed are two hard copies and two CDs of the SAP.
