RE: Final Record of Decision for the Lab Area, Naval Support Facility Indian Head, September 2011

Dear Mr. Rail:

The Federal Facilities Division (FFD) of the Maryland Department of the Environment's Land Restoration Program has completed its review of the above referenced document. This Record of Decision documents the Navy's selected remedy for the Lab Area, which is located in the Restricted Area of Naval Support Facility Indian Head. The selected remedy is "Excavation of Upland Area Surface Soil and Wetland Area Sediment, Offsite Disposal, Site Restoration, and Institutional Controls." The selected remedy is based upon the human health and ecological risk assessments performed during the Remedial Investigation. The remedy selected by the Navy is in compliance with the Comprehensive Environmental Response, Compensation and Liability Act.

A public meeting was held on April 15, 2010 to present the findings in the Proposed Plan. There were no comments received during the public meeting or during the public comment period. Based upon the acceptable level of protection to human health and the environment provided by the remedy, the FFD concurs with the Navy's selected remedy for the Lab Area.

If you have any questions, please contact me at (410) 537-3791.

Sincerely,

Curtis DeTore  
Section Head  
Federal Facilities Division
