**Reference: CLEAN Contract No. N82472-90-D-1298  
Contract Task Order No. 0245**

**Subject: Indian Head Division, Naval Surface Warfare Center  
Master Work Plans for Remedial Investigations**

Dear Mr. Sadorra:

Enclosed are four (4) draft final copies of the Master Work Plan for Remedial Investigations at the Indian Head Division, Naval Surface Warfare Center (IHDIW-NSWC). This document is submitted in accordance with the requirements of the referenced Contract Task Order No. 0245.

By a copy of this communication, 8 copies of the draft final document are being forwarded to Shawn Jorgensen at IHDIW-NSWC.

If you have any questions regarding the Work Plan, please contact me at 412-921-8684.

Sincerely,

George J. Latulippe, P.E.  
Project Manager

RE: Draft Final Master Plans for Remedial Investigations, Naval  
Surface Warfare Center, Indian Head Division, April 1997

Dear Mr. Jorgensen:

Enclosed please find the Maryland Department of the Environment,  
Waste Management Administration's comments on the above-referenced  
document.

Please feel free to contact me at (410) 631-3440 if you have any  
questions.

Sincerely,

Donna A. Lynch  
Remedial Project Manager  
Federal/NPL Superfund Division

Comments on

Draft Final Master Work Plan for Remedial Investigations, Indian  
Head Division, Naval Surface Warfare Center, April 1997

**SPECIFIC COMMENTS**

1. Page 3-7, 2nd paragraph. The National Oceanic and Atmospheric Administration (NOAA) screening guideline for lead in marine sediments is 46.7 parts per million (effects range-low). Please provide justification that 2,000 mg/kg is an appropriate screening level for lead in fresh water sediments.

WASTE MANAGEMENT ADMINISTRATION**

Comments on

Draft Final Master Quality Assurance Project Plan for Remedial  
Investigations, Indian Head Division, Naval Surface Warfare Center,  
April 1997

**SPECIFIC COMMENTS**

1. Page 1-3, Table 1-1. Many of the contract required detection limits (CRDL) for both aqueous and solid samples have higher values than the screening levels that the Navy proposes to use in the Remedial Investigation (RI) work. The detection limits should be compatible with the objectives of the RI.

**Subject:** RE: Checking on IHDIV Documents

Jeff,

We never did finalize that document, as there were no comments from the team, so the Draft is the latest version. Similarl, we are using the draft final of the B&R workplan, and as far as I know there's no final.

Anne

**Subject:** Checking on IHDIV Documents

Anne,

As I begin packing up for our office move, I am trying to square away our documents so I don't take anything extra (no space). I have a draft copy of an Addendum to Master Plans for Remedial Investigations Prepared by B & R, dated March 2000, under CTO 122. Since I don't seem to have a final copy, I wonder if there is one or if the work stopped with a draft. (I had also noticed that the copy of the B & R plan for which the addendum was prepared that I hold is only a draft final. Maybe you folks left it at that?)

Thanks!

Jeff
